Couple To Reside In Grand Prairie

LAC LA BICHE — Madeline, second daughter of Mr. and Mrs. Jake Kline of Lac la Biche, became the bride of Jack, son of Mr. and Mrs. E. J. Rochon of Grande Prairie. The couple were married in the rectory at 10 a.m. on April 17, with Father J. E. McGrane officiating.

The rectory was tastefully decorated with pink and white bells and streamers for the single ring ceremony. The bride, given away by her father, was attired in a floor length satin gown and a foor length veil. She was attended by Georgenia Bourassa and Helen Michetti. The bridesmaids wore green taffeta over lace and mauve taffeta over lace respectively. Little Tudie Rochon was flower girl and wore a white organdy floor length gown.

The groom was attended by Alan Rochon and Jack Ellis.

A reception was held at the bride's home following the ceremony. The bride's table was laid with a white lace cloth and centered with a three-tiered wedding cake. Pink and white roses also adorned the table. Georgenia Bourassa, wearing green taffeta over lace, received the guests.

A dance was held in the Memorial Hall, following the reception.

The couple left on Saturday, April 18, for Grande Prairie, where they will reside. For going away the bride chose a black net dress and white accessories.

Three generations were represented at the wedding in the persons of Mr. and Mrs. Art Rochon, grandparents of the groom, Mr. and Mrs. Gaston Rochon, parents, and Almo Rochon, uncle of the groom.

United Church Ladies Hold Tea

LAC LA BICHE—A successful tea sponsored by the United Church Ladies' Aid was held at the home of Mrs. Fred Lewis on Friday afternoon of last week. Mrs. T. Lett, Mrs. A. Proctor and Mrs. S. Hamar served. Mrs. J. Wolstenholme won a delicious angel food cake when she guessed the exact number of peanuts in a jar; there were two hundred and twelve. $32.00 was realized.

AURORA THEATRE

Lac la Biche Alberta

PRESENTS

WED. & THURS., April 23-24—

A delightful Comedy in technicolor. If you love song, dance and music this one will be a must on your entertainment program.

Wednesday and Thursday, 8:30 p.m.

FRI. & SAT., April 25-26—

"Father's Little Dividend"

With Spencer Tracy, Elizabeth Taylor and Joan Bennett. A sequel to that hilarious comedy, "Father of the Bride."

Time—Friday, 8.30 p.m.— Saturday, 2:30, 7:00, 9:15.

MON. & TUES., April 28-29—

"VALENTINO"

Technicolor Biographical Drama. Life of the great silent movie star of the 20's. Starring Anthony Dexter, Eleanor Parker, Richard Carlson, Patricia Medina and Dona Drake.

Monday and Tuesday, 8:30 p.m.

AFU STAFF — Above are members of President Henry Young's Alberta Farmers' Union Edmonton office staff. They are: sitting from left to right, Frances Hicks, stenographer; Helen Deakin, bookkeeper. Standing, left to right, Pansy Molen, typist; Gertrude Wohl, secretary and Lillian Hogg, receptionist.

LAC LA BICHE NEWS NOTES

Roger Kettleson, employed with Hon Drilling as derrick man, spent Sunday with his parents at Lamont.

Mrs. Shoup and three children from Lacombe spent the week-end with her parents, Mr. and Mrs. Harry Gramer.

Mr. and Mrs. George Curry and three children from Lacombe visited their parents, Mr. and Mrs. Harry Cramer and Mr. and Mrs. Curry.

A daughter was born to Mr. and Mrs. Omer Fyth in St. Catherines Hospital, last Saturday, April 12. Mother and daughter are doing nicely.

Albert Fyth from Syria is staying with his cousins, Mr. and Mrs. Fyth, and attending school. He is 14 years old and doing well with his English.

Hessin Farris, from Edmonton, visited Mr. and Mrs. Fyth over the week-end.

Abe Zrien spent the week-end in Edmonton.

Mr. Hassin Teha, from Syria, is visiting his sister, Mrs. Fyth, and family.

Salin and Joseph Fyth, from Syria, are visiting their uncle and aunt, Mr. and Mrs. Fyth.

Send your subscription or renewal to Mrs. Tatum, local editor, or contact her at her residence, the third house up the street from the hospital, where the Modern Beauty Shoppe was last year.

Mr. and Mrs. Fred Lewis and family motored to Perryvale to visit Mrs. Lewis's mother, Mrs. C. Waffle, last Sunday. They returned Sunday evening.

Miss Jean Horosko of Boyle spent last Sunday evening in Lac la Biche visiting her sister, Miss Alom Horosko.

Johnny Puchyr, former student of Dr. Swift's High School, now attending St. Joseph's, spent a few days visiting friends in Lac la Biche during the Easter holidays. He stayed with Mr. and Mrs. Zinko. On Saturday morning he and his friend Maurice left together by train. Maurice was going back to work at Invermay and Johnny to school.

Mr. Selinger returned to Lac la Biche last Friday after inheriting some property and a considerable amount of money at his father's death. He now has a Monarch car, which he drove home from Saskatchewan.

Mr. and Mrs. L. Hall and their daughter Dorothy motored to Stettler to attend the wedding of an old friend, Miss Pearl McBride. They left on Friday morning and returned on Sunday afternoon.

Hospital Report

LAC LA BICHE—In St. Catherine's Hospital during week:

Mrs. Fred Plamondon, Plamondon; Baby Cree, Big Bay; Baby Carles Francis, Ellscott; Mr. Nick Henson, Boyle; Mr. Clarence Stevens, Rich Lake; Margaret Huppie, Lac la Biche; Mr. Clarence Richards, Mile 137; Mrs. Gordon Jenkins, Atmore; Mrs. Balyk, Boyle.

Mike Lewiski, Prosperity; Baby Bassett, Lac la Biche; Mr. Wilfrid Picard, Lac la Biche; Milferd Plamondon, Plamondon; Mrs. Jos. Langevin, Lac la Biche; Mr. Wm. Nykolyn, Serrail; Jimmy Larocque, Tweedee; Max McKenzie, Donatville; Mrs. Fred Labby, Lac la Biche; Mr. Edward Martin, Lac la Biche; Baby Letwin, Frains.

BIRTHS

Born to Mr. and Mrs. Peter Trefenanko, Wandering River, a son, April 11.

To Mr. and Mrs. Omer Fyith, Lac la Biche, a daughter, April 12.

To Mr. and Mrs. Arthur Griswold, Lac la Biche, a daughter, April 13.

RICH LAKE NEWS NOTES

The Junior Red Cross Club at Rich Lake held a candy sale at the school on April 4. Proceeds went to the Red Cross.

The High School students, accompanied by their teacher, Miss Sanders, went to see the show, "Hamlet," which was showing in Lac la Biche recently.

Miss Stella Lachowich, who worked in Therien during the winter, is back home again.

Misses Alom and Jean Horosko spent a few days at home during the Easter holidays.

Miss Sanders went home for her Easter holidays.

Doris Sandulac of Goose Lake spent her Easter holidays in Lac la Biche.

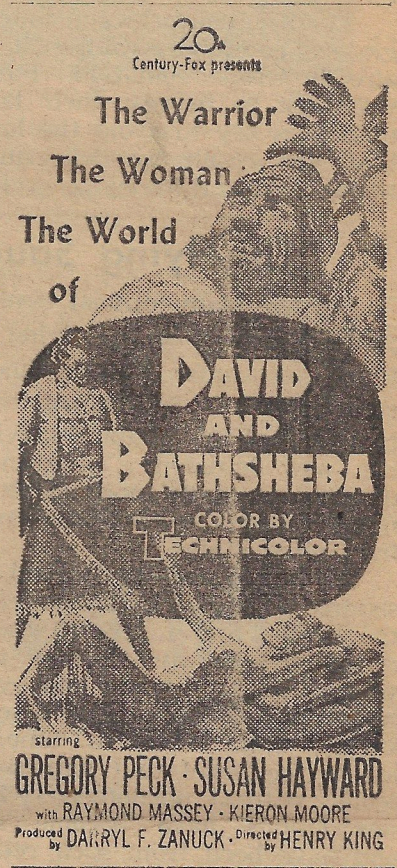
Lewis LeMay is back home again, after spending a few months at Lac la Biche.

DAVID AND BATHSHEBA

David and Bathsheba is the story, told in a modern version, of how two people held the lives of their fellowmen in their hands, and how, because David finally found God, whom he had long since deserted, he saved, not only the life of the woman he loved, but also his country.

David had been chosen by Eli as a young lad to become King. It was this same David who had volunteered to fight and had killed the mighty Goliath. But sometime during his reign, David had forgotten the God whom he had known and loved through his years of growing up. And because he had forgotten, he readily broke one of God's commandments—for the woman, Bathsheba. His people believed that he was responsible for the terrible state in which they found themselves: they were hungry, and David was unable to acquire food from any source; the sheep were dying off and there had been no rain for many days. In their anger the people determined Bathsheba should die, that she should be stoned to death as was the custom. This was more than David could bear. He went among the angry throng gathered at the palace gates, daring them to tell who says Bathsheba should die. None would answer. Then quietly, one of his wives, the daughter of King Saul and their son, stepped forward saying that Bathsheba must die. David could do nothing more.

He ordered his personal guards to protect the palace and to kill anyone who dared to enter. Placing his beloved Bathsheba in their care he proceeded through the angry mob to the tabernacle in which rested the Arc of the Covenant, where, for the first time in many years he prayed. He prayed long and earnestly entreating God to bring relief to his people. And while the King prayed, the people waited outside the tabernacle, and even while they waited and David prayed, rain began to fall, and the people rejoiced.



INTRODUCING CASLAN

By H. C. Reynolds

For the first time in the life of this newly-born hamlet we beg to introduce a few of the items of this progresive district.

With the drying up of our highways and branch roads, traffic is beginning to move in this direction, wagons, cars, taxis and trucks are passing north, south, east and west.

We need a better road system and we hope for improvement along these lines, but we are assured that road machinery is being prepared for the onslaught, which is just around the corner.

Too often have we waited until the wooden culverts are rotten and the water of the melting snows is pouring over our outdated road systems.

Buck Lake and the surrounding area has become a subject of interest to our prospective tourists, who picture their tents on the hillside and their motor boats gliding through the placid waters of this historic lake.

After continuous efforts have been made and representations to the head offices of the various elevator companies, we are assured that the construction of a new elevator will be a reality in a few week's time, and the 1,200,000-bu. crop from 266 threshing machines surrounding Caslan will be poured into the bins of the new elevator, and shorten the distance of transportation from ten to thirty miles at points where elevators have been constructed.

Caslan boasts of one of the most up-to-date school buildings erected during 1951, and it is in charge of one of the most up-to-date teachers in the person of Miss Emily Sawldiuk.

Four progressive stores adorn the hillside and dozens of teams daily are found tied, awaiting their load of groceries before proceeding to their farm homes.

Daily trains and freights ply to-and-fro from Edmonton to Lac la Biche, picking up stock from the yards and pulp and ties for outside points.

Delegates from Caslan have visited different departments of the parliament and administration buildings and laid their wishes for bet'er services before the different ministers an dhave been pleased with results.

Good luck to you, Caslan, and continue your Boyle Beacon, as this is our only local medium.

Red Cross Drive

The following is a partial list of contributions to the Canadian Red Cross:

Joe Hendera, $1.00; Dan Winnick, $1.00; Paul Stewart, $1.00; Stanley Uluschuk, $1.00; John Stariat, $1.00; Tony Pawluk, $1.00; Albert Spila, $1.00; Frank Spila, $1.00; Earl Wright, $2.00; Frank Krolikowski, $2.00; Nick Beroziuk, $1.00; Joe Shimonichek, $1.00; Harry Olynyk, $1.00; Bill Tostynuik, $1.00; Walter Garbowski, $1.00; Frank Trela, $1.00; Nick Ulushchuk, $1.00; Stefiuk, 50c; Mitchell Kostiuk, 50c; Mike Tostyniuk, 10c; Grand Total $19.20.

— Canvasser, John Trela.

EDITORIALS

Harvesting in the Spring

About 56 million bushels of wheat and 71 million bushels of oats and barley lay out unharvested on Alberta farms this past winter.

That means that a lot of harvesting will have to be completed this spring.

It is the hope of all that favorable weather will be experienced, as the grain should be dry before it is combined or threshed.

Some 190 million bushels of tough and damp grain have already been delivered in the west from the 1951 crop. Another 60 million are in farm bins soon to be delivered. About 60 million bushels have been dried in terminals.

Further deliveries of tough and damp grain to country elevators will aggravate an already serious condition. Farmers are advised not to harvest their last fall's crop until it is dry to avoid the loss of revenue that will result by delivering low grade wheat, oats and barley to grain buyers.

The Flying Saucers

Despite many official denials in recent years, the case of the flying saucers continues to arouse interest and cause concern. The latest information indicates that one of the military services, at least, has now initiated a program, in all seriousness, to learn more about the strange flying objects periodically reported over the United States.

As far as can be learned, none of the strange flying objects has ever landed in the United States, though they have been reported seen by veteran airline pilots, veteran military pilots and by many other responsible officials. The descriptions have varied, from time to time, which has led to the belief that witnesses were only seeing natural phenomena. However, the descriptions have become so persistent and have been from such reliable sources, that military officials have deemed it proper to serioulsy investigate this stranger-than-fiction situation.

This is a strong indication that there is more than meets the eye in the flying saucers' report. Whether the saucers originate outside the United States or whether they are experimental projects of the U.S. armed forces, the editor cannot say. All that can be said is that some of the military are taking seriously reports of weird objects flying through the skies.

Splash!

Motorists in our town are, in the main, as courteous a group as you will find anywhere. They are careful to watch the speed limit, to stop at signs and to watch out for children on the streets. They seldom, if ever, race a pedestrian to a street crossing and usually turn corners on at least three wheels. In other words, they are good citizens when they get behind the wheel of their car.

In the spring, sloppy streets and puddles offer temptation. There is something in expressibly funny about seeing a person (someone else of course) get splashed — funny, that is, to people other than the splashee. Now in our town motorists curb their sense of humor and simply don't go swishing around town splashing as many pedestrians as they can. But once in a while a car driver may be just a little absent-minded and may unintentionally splash a person walking along the sidewalk, minding his or her own business.

This, then, is an appeal to auto drivers to avoid absent-mindedness until the streets dry up, to drive a little more slowly than the law calls for and to keep an eye open for pedestrians. The result will be (we hope) no splashed spring togs and no irate citizens.

Thoughtfulness in the springtime and indeed any season of the year helps to keep everyone happy.

British Labor Party Gains

In elections early in April to the London County Council, candidates representing the Labor Party made a strong comeback and won nearly three out of every four seats. Of course, the Labor Party has always been strong in London and has exercised control over the London area for eighteen years. In 1949, the Conservatives almost won control of the Council.

The Conservative trend in England was further demonstrated in 1949 in the general elections, when the Churchill Government won control of Parliament. From the results of the latest elections, it appears there is some possibility that the trend has been reversed.

Labor candidates in the April elections pointed to the national situation in England, the new austerity program and the decreased rations, to show that the Conservative Government had accomplished nothing since being elected to office. The promises of last year, of red meat, more food, lower prices, all were ridiculed by the Laborites, who can point to less meat and higher prices, in many cases, and tightened rations in most cases.

Of course, the Conservatives are embarking on a rearmament program and have other reasons for the tightened controls but, nevertheless, their control in Parliament hangs by a thin thread. Everyone agrees that the next few months may be a crucial period in the Conservative Party's reign in England. The accuracy of Laborite predictions that the Churchill Government would last only six months will probably be determined in the next few weeks or months.

More Food For People

The gradual disappearance of the horse as a source of farm draft power has meant that more land is available for feeding people.

Charles F. Kettering, research consultant for General Motors, calculates that 4½ persons can be fed on the land hitherto required to produce fodder for one horse. That means that 80 million more people in the United States can be fed without farming one more acre of ground.

Everyday Living

MORE ABOUT CIGARETTE-HANDICAPS

Doctor Charles L. Barber of Lansing, Mich., at a Medical Research Convention, stated: A baby born of a cigarette-smoking mother is sick. It is poisoned. The post mortem shows degeneration of liver, heart and other organs. Sixty per cent of the babies born of mothers who are habitual cigarette smokers, die before they are two years old—others being weak and defective.

WOMEN LISTEN TO THIS

Smoke injures the baby. "Medical authorities of the world" state that infants inhaling tobacco-laden atmosphere acquire loss of appetite, smoker's eyes, listless ways, restless nights, nausea and vomiting.

"Poor Baby," in Vancouver "Sun." Mr. Editor: As a typical example of our smart modern girls, we had a roomer who nursed her baby with a cigarette dangling from her mouth. The falling hot ashes burned a hole in the baby's wool jacket. The infant got sick and the doctor said it was "nicotine colic," but none of this stopped the foolish mother from smoking. She had acquired the habit. M. T. Lowry.

"The subject of cigarette smoking is controversial only in the minds of the uninformed, not so in the light of scientific facts."

THE CIGARETTE FOUND GUILTY

Under the above heading in a recent edition of "Magazine Digest," after years of research, Dr. W. J. McCormick of Toronto, is reported as stating that excessive cigarette smoking causes heart disease known as "Coronary Thrombosis" (formation of a lump in a blood vessel), the common cause of many sudden deaths.

"What? Know ye not that your body is the temple of the Holy Ghost . . ."—1st Cor. 6-19.

UNCLE ED.

Be strong and of good courage; be not afraid, neither be thou dismayed: for the Lord thy God is with three withersoever thou goest—Joshua 1; 9.

U.S. LOOKS TO CANADIAN INDUSTRY

From Editor's Copy, Orangeberg, S.C.

In the wilderness of Northwestern Canada, a new city is being built for 50,000 persons, who will produce aluminum for U.S. consumption. A tunnel is to be drilled two miles through a mountain to carry the water necessary to generate electricity. Roads and streets are being cut through forests.

The new city, Kitimat, is to be one of the largest aluminum plants in the world. Running at capacity, the smelter of this one city will turn out 60 per cent of the entire United States output. The plant, which is expected to cost about half a billion dollars and employ 13.000 men, will ease Washington's allocation problems considerably.

We in the United States often overlook the fact that Canada is rapidly developing into one of the leading industrial nations in the world. In the field of world trade, Canada ranks only behind the United States, Great Britain and France. As a matter of fact, Canadian foreign trade amounts to about $8 billion annually. With a national income of $23 billion, industrial expansion continues at a rate of more than $4 billion a year.

In the last fifty years, the population of Canada has increased from five million to 14 million. The standard of living of our northern neighbors is almost as high as the U.S. standard. Nineteen out of twenty Canadian families have radios, three out of every five own automobiles, and five out of seven have telephones.

Within the next few months, Canadians will begin a project to harness the waters of the Saskatchewan River to irrigate 600,000 acres of land, which will mean homes for 30,000 additional families.

The Canadian Parliament has already authorized construction of the St. Lawrence Seaway, which will make it possible for ocean vessels to sail from the Atlantic into the middle of the continent. Electric power production in Canada has doubled in recent years, and this pioneer nation has its own atomic development.

We in the United States are delighted to see our next door neighbor making so much progress. Instead of fortifying the frontier, we realize that a strong Canada is an asset in the fight for world peace. It is unfortunate that the peoples of Europe are unable to get along as well with one another as do the peoples of the United States and Canada.

Voice of the People

AS IT IS

A letter had appeared recently in another newspaper titled "As It Can Be" and signed "So-and-So", which was in reply to my letter in same paper when I wrote on a different subject than present. As the paper refused to publish my reply again, will you please, sir, allow me space to do so?

"So-and-So" wrote that all sorts of evidence show that human nature is changeable and surmountable and that we must not accept the world as it is, but we must see it as it can be, etc. To prove that his strange ideas are totally wrong, I could bring up innumerable living examples as facts, not evidence, since the latter proved from time to time to be false and thus grossly misleading. To be brief, however, I am drawing his attention to the following observations only:

Human nature is being only driven, and only partially, by civilized social orders and rules into a privacy; but the strong and deeply rooted natural tendencies of a human being never have been changed. It is ridiculous to say by "So-and-So" that eating with fingers or hitting back when hit people throughout the world ceased doing. I do know that such natural practices are continuously going on in every land on the globe. Of course, in more civilized countries mostly privately as far as enjoyable eating is concerned (I mean any solidified food).

Now, how about: prejudice, jealousy, hatred, distrust, conspiracy, deceiveness, greediness, selfishness, self-conceitness, talking but not listening, etc.—were these natural stubborn tendencies surmounted within human nature? Definitely not! All sorts of class-room education, great Christian principles and most severe criticisms proved to be helpless and useless. Only people with enormously wide life-education and so with highly humanitarian ideals are being able to cultivate self-suppression in these regards; but these are only very small minorities.

Therefore how "So-and-So" could expect to see the world as it can be with such detrimental points within human nature? They are those tragic obstacles which have blocked completely the road to the world as it can or should be. Without changing of bad sides within human nature the dream about better world will remain as just a dream for ever. The history has proved it beyond any doubt. Also human life is much too short to see even a marked improvement of the world. We must accept it as it is (despite of the fact that present world is full of evils) to be able to live and so to have opportunity to try to help the right-leading persons to build up a better world for future generations. We must face the realities. History has also proved that those who were unable to face realities all have ended disastrously!

Nevertheless, as an optimist I do strongly believe, Mr Editor, that these mentioned hereby terrible points within human nature could be changed within present century to the extent that betterment of the world could be achieved within next century, providing that beside churches and bible prophecy every educational institution, press, every employer and every home and community league of leading nations at least would preach continuously and with emphasis and solemnity the true brotherhood among all peoples on earth. Without it the world will remain hopeless for ever.

As to the reforms, "So-and So" missed the point again, because it was nothing else but the natural aspirations and impulses which did move oppressed and abused peoples to demand and in some cases to struggle for their natural rights to live as free and equal human beings. As is seen human nature has some good points, too, which it would be a grave mistake to attempt to change; because just a pure illusion or wishful talk can change nothing.

S. T.

95 Avenue, Edmonton.

Widows and children inheriting the savings of Canadian husbands have become a major group of the "shareholders" who own Canadian industry. In many Canadian corporations the individual women shareholders outnumber men by a considerable margin.

Thursday Is Deadline Date

Thursday, April 24, has been set as the final date by which all Alberta passenger cars should be equipped with new license plates.

In announcing the deadline, E. R. Hughes, Deputy Provincial Secretary, appealed to all passenger car owners to get their 1952 plates now.

"We expect a rush on April 23," he said. "Motorists who wish to avoid needless delay should get their license plates now."

UNWANTED HAIR

THE LIGHTER SIDE

Only Decision

The brand-new benedict and an older husband were discussing their favorite subject—women.

"Did you ever win an argument with your wife?" the benedict asked.

"Once," the other answered reflectively. "But it was years ago."

"What was the argument about?"

"I don't remember offhand, but I do recall very clearly that we were putting down a new living-room rug at the time and her mouth was full of carpet tacks."

Gob Humor

"Why did you give the check-room girl a dollar tip?"

"Look at the hat she gave me!"

Is Now!

Barber—Was your tie red when you came in?

GI—Of course not.

Barber—Gosh.

The Question

The father decided to have a serious talk with young Jimmy, who was inclined to be light-hearted and irresponsible.

"Jimmy," he said, "you're getting to be a big boy and you ought to take things more seriously. Just think—if I died suddenly where would you be?"

"Here," said Jimmy. "The question is, where would you be?"

Modern

After searching in vain for a job, a man applied for relief. A girl was behind the desk filling out a questionnaire.

"Do you owe any back house rent?"

"Ma-am," he replied with utmost dignity, "we have modern plumbing."

Stem Rust—What's Ahead for 1952

A plain statement of the situation is that Race 15B of stem rust presents a serious threat to wheat production in Western Canada in 1952. None of the wheat varieties now grown commercially in the Prairie Provinces are resistant to Race 15B.

Rust in the South. During the past winter, Race 15B of stem rust caused considerable damage to grain crops in central Mexico. Stem rust has already been found in Texas. However, crop conditions in that State are unfavourable for the development and spread of rust. Present indications are that there will be no important "build-up" of rust in Texas this Spring. Crop conditions in Oklahoma and Kansas, however, are excellent, and it is possible that a heavy outbreak of stem rust may occur in these States this Spring. If this happens, and the prevailing winds are just right (from the South), billions of spores of Race 15B of stem rust may invade and infect the wheat fields of Western Canada during the critical months of June and July. It is impossible for anyone to forecast at this time whether or not an epidemic of stem rust will occur in Western Canada in 1952. It all depends upon the weather, particularly the weather conditions of June, July and August.

Protective Measures. For their own protection western farmers are advised to use the following rust control measures this Spring: (1) Use only good, high-germinating seed of a recommended wheat variety. (2) Clean and treat all your seed-grain this Spring. This will not stop rust, but it will help the plants to get off to a faster start and lead to earlier crop maturity. (3) Where practicable, use a phosphate fertilizer. This will also help to induce early maturity. (4) Above all, plant your wheat as early as possible. Wheat crops that mature early have a much better chance of escaping rust damage than crops that mature late. These are definite, practical steps which western farmers can and should take this Spring to protect themselves against possible losses from stem rust in 1952.

$1 for BRIGHT SAYINGS

The Editor will pay $1.00 for each child's saying printed. To qualify, items must be true, personal remarks of a child known to the writer. Address "Bright Sayings", P.O. Box 4368, South Edmonton.

The other day my husband and I were reading your column in the Alix Free Press it made us think of a question our son asked us. It was asked out of a clear sky "Daddy, how old was I when I was born?" MRS. M. N.

Alix, Alta.

I was telling my wife about your "Bright Sayings" column and told her to take note of any our three-year-old son came out with. Apparently he overheard me, because a little later I heard him telling his dog "If I say something bright Daddy will get a dollar."

Busby, Alta. H. J. SIDFORD.

Encouraging Spring Harvest Yields

Samples of grain harvested on Alberta farms so far this Spring are not lower in grade than they would have been last Fall and are actually better in some instances as they are not as tough or damp, the Alberta Wheat Pool reported Tuesday.

The fact that the grain has not greatly deteriorated is contrary to what many observers had thought. What was No. 5 last Fall is No. 5 this Spring and it is not damp and tough.

Some field damage is reported but no heavier than last Fall when heavy rains made the mildew situation as bad or worse than now. Of the grain so far harvested, mice damage is not reported to be severe.

Find "Easy Route" To Interior B.C.

BELLA COOLA, B.C.—(BUP)—The dreams of engineers to find an easy route for a highway between Bella Coola on the north coast of British Columbia and the interior of the province may have been realized.

A party, led by forest ranger Bill Benwill, has found a "ridiculously easy route" over grass-studded dirt hills about 50 miles up the Bella Coola valley.

Demands for the highway to the interior were blocked by the government for several years because of the high cost of blasting a road through the mountains.

The investigation party reported there was little more than 1,000 feet of rock involved in the entire proposed route.

There are 45 miles of roads in the Bella Coola valley and an additional 24 miles would give Canada her third outlet to the Pacific.

Auto Licenses Now On Sale

The Alberta Highway Traffic Board began issuing truck, bus and chauffers' lisenes on March 28 at all distributing points throughout the Province.

Applications for renewal of licenses were sent out to all country points on March 24 and applications for the truck and bus drivers in Alberta's cities on March 26.

Truck licenses are similar in design this year to the passenger car plates but will not be of the "permanent" type. They will be isued for one year only and replaced annually.

Truck and chauffeur licenses are available in Edmonton at the Qu'Apelle Building, one block north of the post office. Truck operators requiring drivers' licenses may obtain them from the two issuing points of the Motor Vehicle Branch, one at the Administration Building and the other at the Junior Building in the Edmonton Exhibition grounds.

PLAMONDON NEWS BRIEFS

Holiday visitors over the week-end were many. Amongst them were Mr. and Mrs. Emile Richard and family; Miss Alvina Dube; Miss Alice Bosse; Mr. and Mrs. Paul Bosse; Mr. and Mrs. Noe Bosse and family; Mr. and Mrs. Adelard Boss and family; Mr. Louis Chevigney and son Albert; Mr. Thibert Plamondon and son Gabrial.

Mr. Narcise Menard and Mrs. Menard and son, made a business trip to Edmonton.

Mr. R. E. Piquette made a business trip to the city.

Mr. and Mrs. Octive Chevigney spent the week in the city on business.

Mr. and Mrs. Roland Plamondon made a business trip to Edmonton.

Several Lac la Biche visitors drove down to Plamondon on Thursday afternoon. The roads are good, which makes it a nice drive. Amongst them were Mr. Will Hamilton, Mr. Howard Lett, Mrs. T. Lett and Mrs. Wm. Dumas. Welcome to our town. Come again. . . .

Seems like spring must be just around the corner, bringing garden time. Yards are being cleaned up and plans are being made for the gardens. Mr. and Mrs. Joe Gagnon seem to take the lead in this effort every spring.

Mr. and Mrs. Jerome Johnson are spending the week in Plamondon at the homes of their parents.

Mr. and Mrs. Donald Plamondon have moved into Aristide Germain home, formerly the Beaudette home.

McCORMICK-DEERING SPRING-TOOTH HARROWS

For deep harrowing, breaking soil crust, and killing weeds you can't beat McCormick-Deering Tractor Spring-Tooth Harrows. These harrows are ruggedly constructed for tough going and skillfully engineered to give top-notch performance. You'll like their self-cleaning feature—the automatic oscillating movement which helps to keep the harrow free of trash. The tooth coils are extra large and there is a big amount of clearance between the teeth and under the bars. This all adds up to better work—deeper harrowing when needed, and good trash clearance.

Ask us to tell you more about these durable, good-working harrows. We have them in various widths and in both lever-controlled and tractor-controlled types.

A. HAMILTON & SONS LTD.

LAC LA BICHE ALBERTA

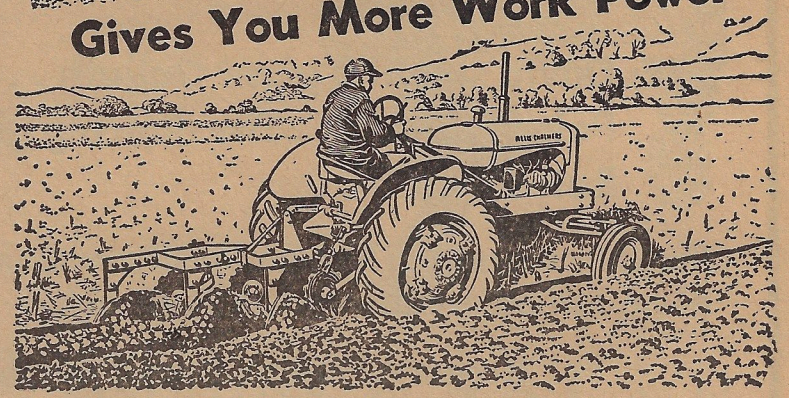
WD TRACTION BOOSTER Gives You More Work Power



When you set the hydraulic lever on the WD Tractor, you can add as much as a thousand pounds of weight on the rear tractor wheels.

As the drawbar load increases, the hydraulic system uses the weight of the implement plus the weight of the soil to bear down on the wheels. Location of the implement behind the tractor gives it leverage, which multiples implement weight at the tractor axle.

It's entirely automatic. The tractor selects the amount of weight needed. And it's all a part of the complete WD hydraulic system—no extra equipment.

Stop in and let us show you how the WD will do drawbar jobs which ordinarily require a much heavier tractor.

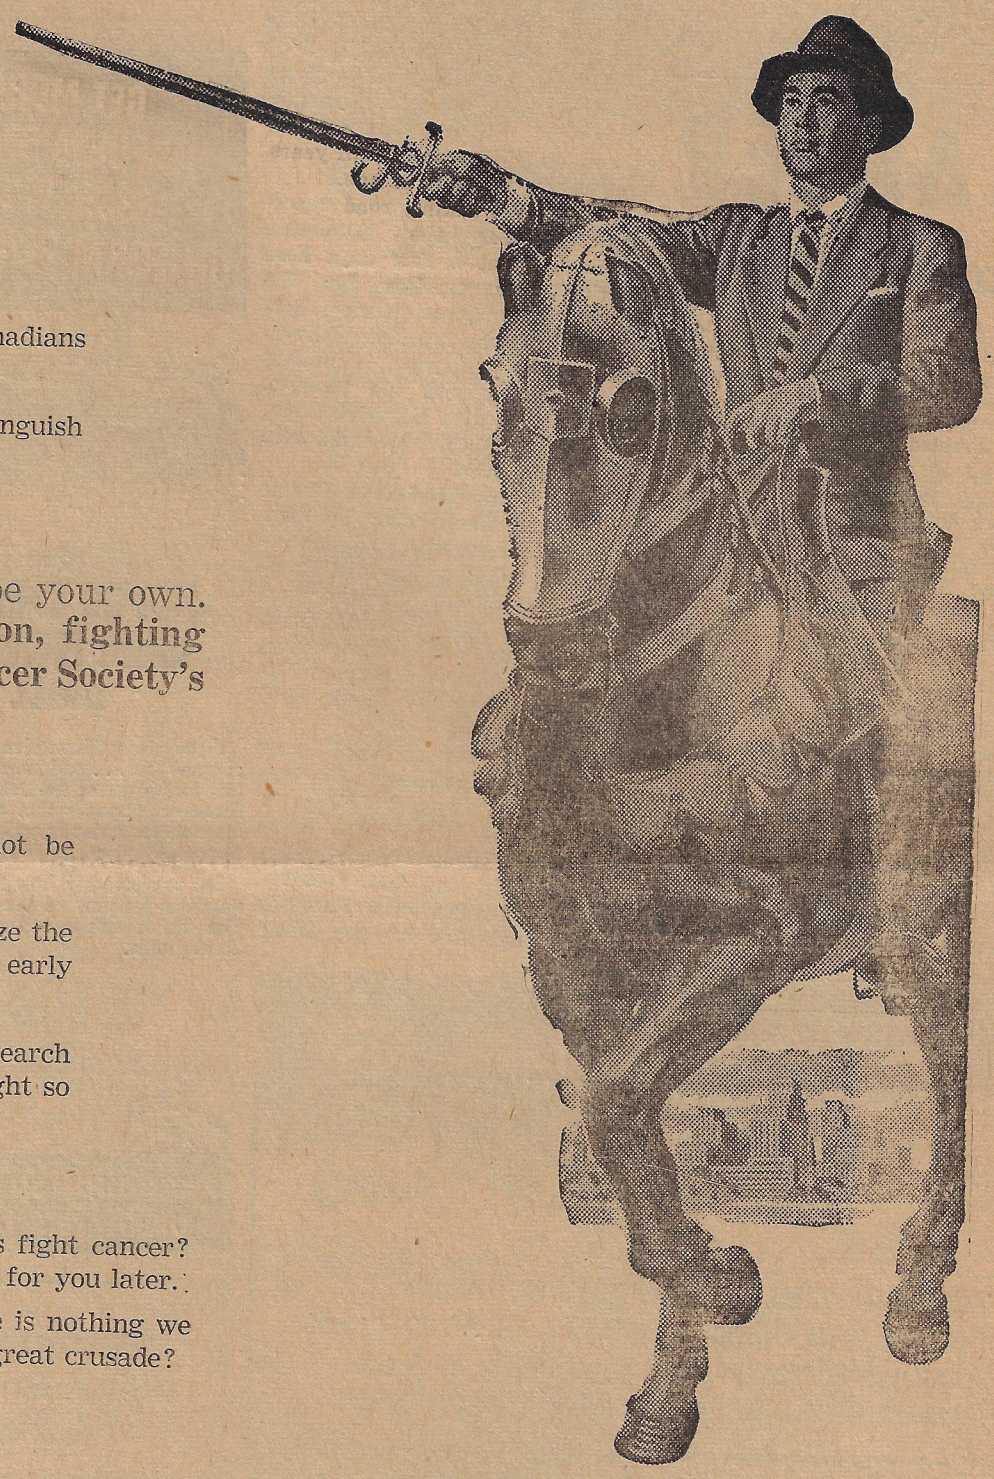
WANTED . . .

A MODERN CRUSADER

. . . to help fight the strangest, strongest foe the world has ever known - - - CANCER!



- Cancer that will kill 2 million living Canadians unless it is controlled.
- Cancer that will cause untold suffering and anguish . . . unless it is checked.

THIS crusader's name? It could easily be your own. You see, **he is any generous person, fighting cancer by giving freely to the Canadian Cancer Society's Cancer Crusade.**

- He believes the light in the "lab" must not be extinguished.
- He believes his fellows must learn to recognize the symptoms of cancer and the need for early diagnosis.
- He believes more doctors, nurses and research scientists must be trained to carry on the fight so well begun.

WILL you be that kind of crusader? Will you help us fight cancer? Remember — a victory now may mean protection for you later. Without your support we may be defeated. With it, there is nothing we cannot do. Won't you help us by doing all you can in this great crusade?

HELP FIGHT The BATTLE Against CANCER

Give to Alberta's $175,000 Crusade!

LAC LA BICHE NEWS BRIEFS

Mr. and Mrs. McMillan and three children went to Edmonton to visit Mrs. McMillan's mother for the Easter holidays.

Mickie Moisey, from Andrew, visited Mrs. Moisey and children on Sunday. Bernie Moisey returned with him for the holidays, and will join his parents in Edmonton, where they will make their future home.

Leon L'Heureux, Lac la Biche, received prizes for his grass seed at Lacombe Agricultural Society Seed Fair and the prize offered by the Chamber of Commerce, Calgary. He uses a John Deere Combine.

Miss Kathleen Gregus, from Charron, was the guest of Mrs. Tatum and Lucille during the Easter holidays.

Mr. and Mrs. L. Anderson and daughter, Debra, visited Mrs. Anderson's aunt, Mrs. McCullough, and family.

Mr. and Mrs. Barney Arnfinson and daughter, Geraldine, spent last week in the city visiting relatives.

Mr. and Mrs. Fred Olynyk and two children, Vickie and Mike, from Edmonton visited Mr. and Mrs. Zalusny last week.

Mrs. L. Benoit, from McLennan, visited her daughter, Mrs. J. L. Breau and family for the Easter holidays. Mrs. Benoit is secretary-treasurer for the Guy Separate eight room school at McLennan. She has held the position for the past 21 years, and has lived at McLennan for the past 38 years and has taken an active part in social life. She has been a widow for the past three and a half years. She is now 70 years of age.

Mr. F. A. Jenkins, road representative for the Edmonton Journal, spent a few days here getting new carriers for the paper. The former carrier, Bernie Moisey, who has been delivering for the past year, is moving to Edmonton with his parents. Herbie Scott, with his sister Ilene, and brother Arthur as assistants, have taken over.

Mr. and Mrs. Ditel from Grassland spent the Easter holidays with their daughter and son-in-law, Mr. and Mrs. Bernard Rominak. Also Bernard's mother and father, Mr. and Mrs. Rominak, from Radway, and three sisters, Annie, Violet and Rita from Edmonton, visited Mr. and Mrs. Rominak.

Johnnie Puchyr returned home for the Easter holidays. He is a student at St. Joseph's College in Edmonton.

Mr. Carl Truche from Thorhild is visiting Mr. and Mrs. Onufru.

Mr. Leo Dragus from Faust is relieving operator at the NAR station.

Mr. Peter Maron, District Agriculturist from Edmonton, is stationed here. He will move his wife and two children up after the school closes.

Week-end visitors to the city were Mrs. Mackriss, Ernie Coutney and Rev. D. A. Greenough.

Mr. Abe Zrien spent two weeks in the city.

CASLAN NEWS BRIEFS

Mr. and Mrs. S. Cislo bought a new Chevrolet car recently.

Lona Kerchewski spent the school holidays with her parents.

Miss Elsie Chomay spent the Easter holidays at her home at Abee.

Mr. Wm. Krawchuk and children spent the holidays at Andrew and Edmonton.

Alex Holash motored here for his holidays after working with an oil outfit in the north country during the winter. Mrs. Holash went to Edmonton with Alex on his return to his job.

Mr. A. Lambert has returned to the district after a short absence.

According to statistics, women live four years longer than men. So you might as well giveup, fellers. the wife will get in the last word anyway.

CANCER
can be cured!

● **It's possible. It's probable.** The big question is . . . In how many cases ? Right now, with present medical knowledge, the number of cancer cures could be doubled.

But we need your dollars . . . to spread information, to make more detection programs available, to assist doctors, and to aid laboratory workers in the great fight to find more cures for cancer.

We ask your help ! There's no time like the present — there's no time to lose. Now is the time to GIVE TO THE CANCER CRUSADE. **Give generously when your local canvasser calls or mail in your contribution.**

Mail this coupon with your contribution to "CANCER" . . .

KIKINO NEWS BRIEFS

Mrs. Helen G. Callion, postmistress for Kikino, transferred the postoffice over to Mrs. Emma J. Lightening on the 27th of March.

Mr. and Mrs. Dan Callion and family are back home after being employed at the Imperial Mills almost all winter.

Mr. and Mrs. Jack Callion have been visiting relatives and friends here in Kikino for the past two weeks.

Mrs. Archie Ladouceur, who is very ill, has gone to Edmonton.

Raymond Bellerose, Shortie Ladouceur, Jerome Donald and Stanley Beareard left for Cold Lake to find employment.

PETROLEUM AND NATURAL GAS RIGHTS

HEART LAKE INDIAN RESERVE

SEPARATE SEALED tenders will be received until 3 p.m., Thursday, the 29th day of May, 1952, for permits under the regulations, respecting Petroleum and Natural Gas on Indian Reserves and Indian Lands on the following parcels of land in Heart Lake Indian Reserve No. 167, in Alberta.

PARCEL A:

In Township 70-10-4; all those portions of sections 6, 7, 8, 9, 15, 16, 17 and 18 which lie north of Heart Lake. The whole of sections 19, 20 and 21, all that portion of section 22 which lies to the north of said Heart Lake, and to the north of Heart River, together with that portion of section 23 lying north of said Heart River.
In Township 70-11-4; the whole of sections 13, 14, 23 and 24, and all those portions of sections 1 and 12 not covered by the waters of said Heart River and Heart Lake.
Area—8,140 acres.
Minimum Value—$819.00.

PARCEL B:

In Township 69-11-4; the whole of sections 13, 23 and 24, those portions of sections 25 and 36 which are not covered by the waters of Heart Lake and all that portion of section 14 which is not covered by the water area shown lying therein on said plan.
Area—2,889 acres.
Minimum Value—$294.00.

Tenderers may bid on one or both parcels. A separate tender must be made in a separate, sealed envelope marked "Tender for Heart Lake Oil Permit, Parcel A (or B)".

Each tender must be accompanied by an accepted cheque to the Receiver General of Canada for the amount tendered, not less than the minimum value, which covers the permit fee and rental for one year.

Tenders must be sent to reach the undersigned by 3 p.m., Thursday, the 29th day of May, 1952.

D. M. MacKAY,
Director
Indian Affairs Branch.

Department of Citizenship and Immigration,
Ottawa, 31 March, 1952.

Ukrainian Easter Sunday Service At St. Catherine's Church

LAC LA BICHE—This year, as the Ukrainian Easter falls on next Sunday, April 20, the Mass in the Byzantine Rite will not be celebrated on the fourth Sunday of the month, as announced elsewhere, but a special Easter Sunday service will be held April 20, at 11:30 a.m., in St. Catherine's Church. All the Ukrainian people of the district are invited.

SPRUCE VALLEY NEWS NOTES

Visitors to Edmonton recently were Mr. and Mrs. Nick Zilinski, Mrs. Mike Zuber, Mr. Peter Koltowski, Mr. Fred Ryl, Mr. Mike Lewicki and Miss Kay Gregus.

Mr. and Mrs. Eugene Strumelak are now living with his parents, Mr. and Mrs. John Strumelak. Mrs. Eugene Strumelak was supervising part of this year's school term in the Bouvier School, during which time they lived in the Bouvier teacherage.

Fatally Hurt When Team Bolts

ST. PAUL, Alta.—Peter Paladichuk, a farmer of the Therien district, 15 miles north of here, was fatally injured when he slipped and fell under a granary he was moving. St. Paul is 110 miler northeast of Edmonton.

St. Paul RCMP said the farmer had hitched a team of horses to the granary. The team bolted and the granary skids passed over Paladichuk's chest when he slipped in the mud. He died in Geldon hospital.

Moving Planes To New Field

Mayor William Hawrelak says the transfer of military flying to Namao from Edmonton's municipal airport is expected to be completed by 1954.

The mayor made the statement following receipt of a letter from Mines and Technical Surveys Minister George Prudham, which said military operations would be moved to Namao as soon as new facilities under construction there become available.

The winter experimental establishment was moved to the field last year. Namao is located just outside Edmonton's northern limits.

The City of Edmonton RCAF Reserve Squadron is not included in the transfer plans.

Mayor Hawrelak says the Namao base will be used exclusively for military flying which rules out any chance of heavy civilian planes also using the base.

Edmonton officials have been fearful of a serious crash taking place in the residential areas surrounding the municipal airport inside the city limits.

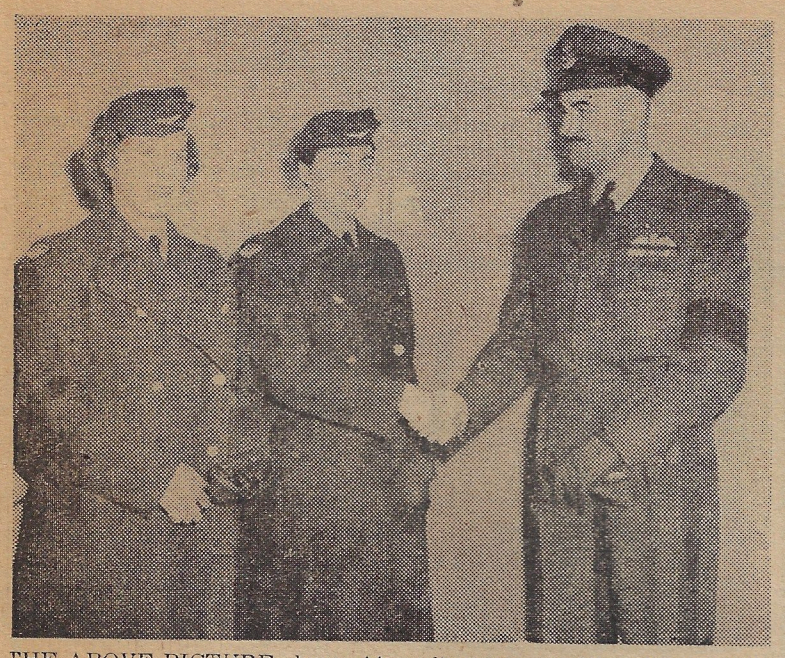
ROYAL CANADIAN AIR FORCE



THE ABOVE PICTURE shows Aircraftswomen (A.W.) "Terry" Wiles of Edmonton and Jean Picard of Campbellton N.B. as they are greeted by W/C W. W. Gilmour, Commanding Officer of RCAF Station, Claresholme, Alta., on their arrival, Friday, Feb. 28. Terry's parents, Mr. and Mrs. G. T. Wiles reside at 10324 82 Ave., Edmonton. Terry attended Scona High School in Edmonton before she started work for the people for her association with roller skating in this city. Terry has Provincial Government. She left the Government service to join the RCAF. Eighteen-year-old Terry Wiles may be remembered by some been training for the last six months at St. Hubert as an Aircraft Control Assistant, and these will be her duties at Claresholme. As the first two women personnel to arrive at Claresholm, they were welcomed with considerable enthusiasm.

DON'T GO WEST, GIRLS !

* * * *

NOT ENOUGH MEN AVAILABLE

Girls who think the West is the place to catch a husband, even in Leap Year, had better take a look at the latest census figures before making any plans.

In Alberta alone there are 76 places, cities, towns, villages, Improvement Districts or regular divisions into which the province has been divided by census takers where women exceed men in numbers.

So you've got to be careful gir'ls.

It's not enough to come to the West and plunk yourself down, complete with dowry, expecting men to come tripping over you.

EVEN STEPHEN

Not only are those 76 places in which the females are already vieing for honors in the eyes of the males, but there are also four other places where the set-up is so precise there are exactly the same number of females as males. These are in two Improvement Districts, Wood Buffalo Park and Stony Plain.

In 11 Alberta localities the difference between the number of males and the number of females is only one person.

But to go back for a minute to those 76 over-populated areas. Among those areas is Calgary with 65,081 gals, and only 63,979 fellas. Under those circumstances any girl who walks down a city street with two men is almost committing a crime.

Edmonton is also in the unhealthy state of having more women than men. Its figures show a total of 80,658 gals to only 78,973 men.

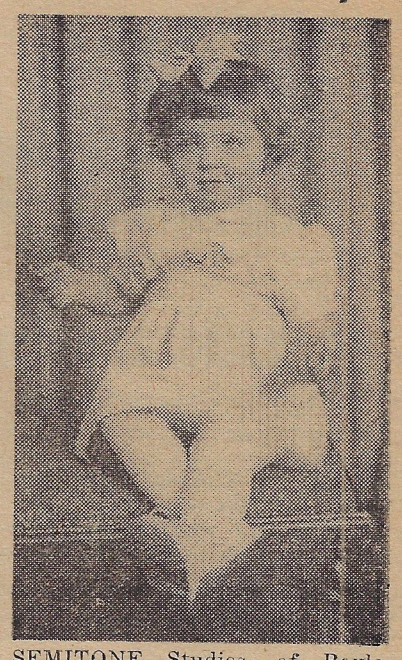
One of the big surprises in the ninth census from which the population figures are drawn is the fact that the oil town of Devon, just south of Edmonton, has more women than men. Even with its great oil industry employing hundreds of men figures show only 408 men and 434 women.

MORE OF THEM

Two other Alberta towns, the once-great Turner Valley, and the booming Fort Macleod, recently renamed, are also run by women. They must be. There are more of them.

For husband hunting women looking for adventure and who don't mind an element of chance in their endeavors try Viking with 342 men and 341 women; Alix with 231 men and 230 women; Bittern Lake, 13 to 12; Alberta Beach, 40 to 39; some place called 661, 662, Improvement District, with six men and five women; 589, 590, I.D., 19 men and only 18 women; or the Indian Reserve in District 16, where there are 51 men and 50 women.

Beautiful Baby



SEMITONE Studios, of Boyle, took this charming picture of Judy Louise, daughter of Mr. and Mrs. Robert Rhein of Atmore. Judy is 19 months old.

TAR SANDS DEVELOPMENT TO BEGIN THIS SUMMER

Five independent companies will start an exploration program this summer to develop the Athabasca oil sands, while arrangements have been made by a Swedish oil firm to lease sections of the Province's plant at Bitumont to experiment with their extraction process.

The companies, which have leased almost 250,000 acres of land west of the Athabasca River and north of Fort McMurray, include Calvan Consolidated Oil and Gas Corporation. Asher Oil Company, Pacific Petroleum Limited, New Continental Oil of Canada and Charter Oils. Their program will consist of systematic core drilling to determine the amount of overburden above the productive oil sands formations, the thickness of the sand and the petroleum content.

Socony - Vacuum Exploration Co. Ltd., and Edward Gilbert, all of Calgary, also have applied for reservations in the oil sands. Each of the three applicants have applied for reservations of 50,000 acres.

The Swedish Shale Oil Company will attempt to extract oil from the sands by a process involving heat. The present proven systems are by the hot water and the cold water methods.

Dying Man Pays For Conscience

EDMONTON—The Alberta government's fish and game branch is $75 richer and a 72-year-old Vancouver man, formerly of Alberta, can die without a guilty conscience.

The man sent to the judge of the District Court in Innisfail, Alta., a cheque for $75 which he said was the money he received sometime between 1909 and 1920 for pelts of six beavers he killed illegally.

He said he didn't expect to live very long and wanted to die with a clear conscience.

The money was turned over to the government's fish and game branch.
